“Sleepy little fishing village”? We remember when that was true.

Our world is changing. Again. Because we live in one of the nation’s fastest-growing regions, the need for a partner to guide you through this historical transformation has never been greater. With more than a century of combined experience, the law firm of Matthews & Hawkins provides legal services across Florida’s Great Northwest. We are an integral part of our area’s economic development initiatives and offer representation in the fields of corporate and business law, capital restructuring, commercial litigation, real estate and land use. Matthews & Hawkins: Remembering the past, seeing the future.
